Notes on the use of Korean Exchanges

We are pleased to announce two important announcements about some Korean exchanges' implementation of travel rules starting March 25, 2022.

⚠ NOTE 1:

If you apply for a withdrawal on a Fairox.com exchange that enforces travel rules, your deposit may be denied by that exchange, and you will have to go through multiple procedures to process a refund. If this situation occurs, you must first apply for a refund at the Korea Exchange and then submit your details to the Fairox.com Customer Center via the link below as the second step. The company will receive your deposit and process your refund manually as the third step. Manual return processing will be performed as the tertiary step.

The entire process usually takes one to two weeks.

⚠ NOTE 2:

The ETH wallet address and USDT wallet address of "Upbit Exchange" are different. If the withdrawal process at Fairox.com is not successful due to your own mistake, please submit a refund request to Upbit as described in [Note 1], and then submit your details to the Fairox.com Customer Center for processing as a secondary step. Please note that the refund will be processed as described in [Note 1].

Notes.

When applying for Fairox.vip commissions, please use the Fairox.com exchange.
